Compare Chateau

	Innovation	Chateau	Compare Current Database
1.	Schedule and label every monitoring event with the precise reason it was performed (InspectionWhy)?	Yes	
2.	If so, how many different InspectionWhy settings are supported?	60+	
3.	Easily allow techs to select a predefined reason for not monitoring a component (M21 Variance), and those components automatically get flagged for QC?	Yes	
4.	Effectively manage components temporarily unavailable for monitoring (TUx) without putting them OOS?	Yes	
5.	Easily remove any TUx items purged of all process from Emissions Calculations?	Yes	
6.	Design Data Structure and Fields to reflect *YOUR* LDAR program?	Yes	
7.	Component Properties supported?	108	
8.	Support for SubSub Type (to support HRVOC and BWON)?	Yes	
9.	Customizable Picklists rather than text fields?	69	
10.	Built in "excess DTM" function for units subject to regulatory DTM restrictions?	Yes	
11.	Link SubTags (.1, .2) to base tag and prevent SubTag mistakes during MOC?	Yes	
12.	Ability to manage initial monitoring on newly installed equipment?	Yes	
13.	Manage AVO inspections, events, and leaks separately from M21 and OGI.	Yes	
14.	Supports multiple M21 Detector Types?	9	
15.	Leaker Tag Removal powered by InspectionWhy settings?	Yes	
16.	Automated Next Action prompt on all Open Leaks?	Yes	
17.	Customizable regulation/rule assignment based on up to 17 component groups rather than manual application?	Yes	
18.	Robust MOC process (i.e., Suggester → Processer → Rule/non-Rule Approver)?	Yes	
19.	Integration of *ALL* LDAR data (Techs, Calibration, Cylinders, Suppliers)?	Yes	
20.	Automated Report Subscriptions with integrated email support?	Yes	
21.	Ability to document leak closures for multiple reasons?	Yes	
22.	Schedule Runs automatically every day at 4:00 AM?	Yes	

23.	Attach comments or documents to components, repair attempts, leaks, and/or inspections?	Yes	
24.	Track Attempt Types (Simple, Standard, Advanced, and AVO) *AND* Methods?	Yes	
25.	Industry recognized Technical Advisors?	17	
26.	Automated customized leak notifications?	Yes	
27.	Customizable audit porches?	100+	
28.	Robust OGI module with automatic video linking to inspections?	Yes	
29.	Easily switch between databases without closing down browser?	Yes	
30.	Ability to auto-generate Tours (routes) based on custom parameters?	Yes
